

DECLARATION OF ECO-SUSTAINABILITY

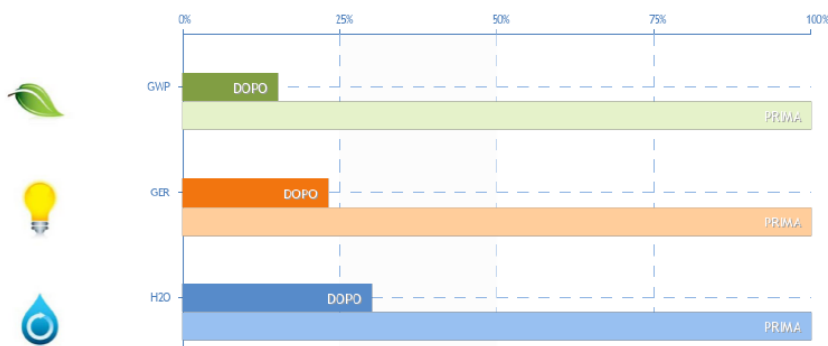

We are hereby declaring that the packaging and product :

ITEM	MATERIAL
COFFEE STIRRER OAR SHAPE	Coffee stirrer: PLA Packaging: Case, film for automatic packaging

Legend: PS (polystyrene)- PP (polypropylene)- PLA (polylactic acid)- PE (polyester)

Are eco-sustainable since:

- Coffee stirrer is made using compostable materials (PLA) according to the UNI EN 13432: 2000/2002 standard;
- it is certified for FCM;
- its design has been specifically designed to ensure the least possible use of material (note the oar shape and the holes at the end to make the sweetener turn better¹);
- its packaging was awarded by **CONAI**² in 2022, as the LCA analysis carried out by them, testified to a method of wrapping with less waste of CO₂, energy and H₂O: the packaging thanks to the extraction from above, ensures hygiene and avoids the need for individual wrapping of the stirrers.

This declaration refers to the product as supplied by PIR.SA.FA. S.r.l., deductible from sales invoices and does not extend to subsequent modifications and/or treatments (chemical, thermal, etc.) made by third parties or by improper use of the product itself. For further information, please contact our office at pirsafa@pirsafa.com

¹thus allowing less use.
