

DECLARATION OF FOOD CONTACT

MATERIALS AND ITEMS

We are hereby declaring that the product:

| ITEM | MATERIAL |
|-----------------------------|--------------------|
| Transparent Ice cream stick | Polystyrene (PS 6) |

1) complies with the following EC Community legislation:

- **EU Regulation 10/2011-1416/2016-213/2018-752/2017** (migration limits) and subsequent updates and amendments;
- **EU Regulation 1935/2004** (MOCA recognition) and subsequent updates and amendments;

and the following Italian legislation:

- **Ministerial Decree 21/3/73** (proof of assignment) and subsequent updates and amendments;
- **DPR 777/1982** (proof of sale) and subsequent updates and modifications.

2) The material may contain restricted substances in the aforementioned legislation. The material respects the limits of global and specific migration of Regulation 10/2011 and s.m.i.

The overall migration limit, together with the other specific restrictions to which the substances present in the material may be subject, shall be complied with under the above mentioned conditions of use. The statement is supported by analytical tests or on the basis of calculations made considering the content of substances subject to migration limits, in accordance with DM 21/3/73 and with Regulation (EC) 10/2011 and subsequent updates and amendments.

3) The material may contain substances regulated by Regulation 1333/08/EC and 1334/08/EC (substances also called "dual use" additives). According to experimental data and/or theoretical calculations, these substances comply with the provisions of art.11 EC Regulation 10/2011 paragraph 3, letters a, b from DM 21/03/1973.

4) This product is manufactured according to good manufacturing practice (GMP) of Regulation 2023/2006/EC.

5) This product was made using raw materials that can be composted according to the UNI EN 13432 /2002 standard.

The user of the material intended for contact with food is responsible for communicating to the writing company any restrictions due to the compositional characteristics (presence of additives and flavourings) of the food to be packaged.

The product can be used, together with the food, in the traditional oven Yes No

The product can be used, together with the food, in the microwave oven Yes No

The product can be used, together with the food, to:

- *Minimum temperature 0 °C;*
- *Maximum temperature: +70 °C*

This declaration shall be valid from the date set out below and shall be replaced if there are substantial changes in the production of the material capable of changing certain essential requirements for the purposes of conformity or when the legislative references cited shall be amended and updated to require a new verification for compliance.

This declaration refers to the product as supplied by PIR.SA.FA. S.r.l. and does not extend to subsequent modifications and/or treatments (chemical, thermal, etc.) made by third parties or incorrect use of the product itself. For further information contact our office at pirsafa@pirsafa.com
