

- 1) On the models s-MV- MV Bitaglia, for the band part with a width from 40 mm to 55 mm, the collar interlay strip has excess PVC (see size width increase).
- 2) The length of the band of all the above-mentioned models includes a pointed tip measuring: 15 mm in S - D/baby models; 9 mm in MV models, 12 mm in D - J models.
- 3) Intermediate band lengths and widths on request for D/baby-D-S-MV and MV Bitaglia models. Other intermediate band lengths available on request for all collar interlay strips.
- 4) Size marker numbers on request because some collar interlay strips are supplied with template holes for assembly.
- 5) Product with clear pale blue-tinted Crystal PVC (non-toxic, recyclable, suitable for food use) standard thickness 25/100, on request 30/100 and 35/100. In polystyrene, matt satin-finish PVC and clear PET.
- 6) Complaints regarding transparency, colour, thickness (legal tolerance +/- 10%) and irregular stiffness will not be accepted.
