

DATA SHEET

STEEL CLIPS mm 32/34

Description	Steel clips for shirting mm 32/ 34	
Materials	Steel inox 304	
Dimensions	H mm 32-34	
Packaging	Carton box (PAP 21) of pcs 2000 in a corrugated carton box (PAP 20) of pcs 20000	
Precautions during ironing and washing	<p>Avoid ironing and washing the garment with the clips inserted. They should be mounted on stretched tissues without the presence of aqueous solutions, saline or similar substances. The warm shirt on which the steel clips are mounted must be cooled before being stored in the bag/box. It has been ascertained that, in spite of the Steel alloy, the corrosion process (rust) of the clips is determined by specific chemical substances, used for the staining of the fabrics. Shirts shipped by sea must be made without clips.</p>	
Storage in warehouse	Avoid humid environments and away from areas in which the ironing takes place and in which vapours are released.	
Environmental labelling packaging (Legislative decree 3 September 2020, n. 116)	<ol style="list-style-type: none"> 1. Clips: Steel Inox 304 (FE 40) 2. Carton Box (PAP 21) 3. Corrugated cardboard box (PAP 20) 4. Tape: Polypropylene (PP 5)
